INTERNATIONAL RIVA-MEETING SWITZERLAND

Dear Riva Friends

After months of preparation, we are pleased to be able to officially invite you to the **International Riva meeting that will be held in Brunnen, on the lake of the four Cantons, from September 6th to 9th 2018.**

We will be right in the heart of historical Switzerland where, in the year 1291, delegates of two counties and one big valley set the base of an alliance that became thereafter the Confederatio Helvetica -the Swiss Confederation.

During this period and thereafter, boats played a crucial role here for our history and our tales!

Willhelm Tell, Bailiff Gessler, the «Hohle Gasse», Schiller, I and II WW fortresses beaten in the rock and visible only from the water, are some of the characters and places that we will learn to know and visit. All this in a beautiful and nearly untouched scenery set between this very big lake and gorgeous mountains!
